

MENORCA MEDITERRANEAN

Feel the corners of this spectacular island

The Balearic Islands are a spectacle of nature, possibly that is why Menorca is a Biosphere Reserve by UNESCO. This wonderful island, full of coves with crystal clear water, stories, legends and traditions, the perfect setting to disconnect from everyday life and reconnect with nature and local cuisine.

Our itinerary will take you to explore the best of this Mediterranean paradise, always in the company of good local hosts, who will tell you many stories of the island and those who came from abroad to stay. We will also show you some things about our traditions, such as our typical sandals, our famous movie director chairs (which are actually Menorcan chairs), and of course, we will teach you the secrets of our ensaimadas and sobrasadas. This and much more is what we have prepared for you when you come to visit us.

I'm Ana, together we will discover the charming Menorca
